MUUTO'S ICONIC 'RESTORE BASKET' - NOW LAUNCHING IN FRESH NEW COLORS

The iconic RESTORE basket, made from recycled plastic bottles, is now available in three new colors: Black Melange, Midnight Blue and Aqua. With its flecked surface and soft nuance the black version complements the basket's round shape. The blue nuance is of a classic, timeless character while the green-ish aqua, makes for a fresh, modern touch. The smart felt material and soft shape add to Restore's simple and friendly appearance.

Rewstore's recycled polymer felt challenges the traditional idea of materials for storage solutions. It primarily consists of the fibers gained from the recycling process of plastic bottles, creating a product both innovative and durable. Versatile in its usage possibilities, Restore is ideal to accommodate everything from newspapers to firewood, toys, blankets, and other (everyday) objects.

MIKA TOLVANEN ON THE DESIGN

"I wanted the baskets to have a non-obtrusive nature. Polymer felt combined with a soft form give the baskets a friendly appearance. The name Restore is inspired by the fact that baskets are made of recycled PET bottles."
