

Lima Arms

MM-LMA/001/001/

MM-LMA/001/002/

Description

With a history of industry firsts and award-winning products, CBS is proud to add an outstanding entry level monitor arm to their portfolio. Lima comprises a clamp, post and arm that arrive in one box, and require minimal tools to install. Ordering is simple and because the complete solution arrives as one, the dispatch process is far more efficient, and less packaging is used. Good for you, and good for the environment.

AN ADDED ADVANTAGE:

As your workplace needs grow, Lima can too. Adding another monitor is quick and easy to do. Just order another extension arm, and then you can slide it directly on to the post. No tools, and no need to remove the existing arm, screen and cables. And that means no hassle for you.

THE HEIGHT OF SOPHISTICATION:

With the press of a button, Lima allows you to move a screen up or down to the ideal height. And if you're working with dual screens, you can move each one independently. Being able to tailor each screen height and distance to your unique needs helps you adopt a good posture and allows for healthy interaction between you and your technology. Lima's head offers the ability to tilt the screen up to 80° back or 10° forward. This helps you set the screen to your unique specifications, taking in to consideration lighting in your workspace and the increased use of touchscreen devices in the modern workspace.

INSTALL WITH EASE:

Lima is fast and easy to install.

The post and clamp come in one piece, which attaches to the desk using a thumbwheel screw, and the arm then slides into the grooves on the post. And all you need to attach your screen to the VESA mount is a screwdriver. Lima offers you a choice of colors to match the aesthetics of your workspace. Available in three colors; white, black and grey, with the posts available in anodized black and grey, Lima offers a concise choice of neutral colors to help it blend into any environment.

Key features include:

- Supports up to 6.5kg in monitor weight per screen.
- Lima's head offers the ability to tilt the screen up to 80° back or 10° forward.
- All in one box solution for a single screen set up.
- Additional arm available separately for dual screen.
- Articulation range and smoothness of motion.
- All in one post with clamp (clamp range 6 to 40mm).
- Height adjustability achieved using push button technology.
- 3 - Point cable management guides cables tidily from monitor to desktop.
- Tool less installation (except for fixing VESA Plate to monitor).
- The clamp is suitable for desk thicknesses from 6mm to 40mm.
